

产品系列	CH910162
额定输入	25A _{DC} 、50A _{DC} 、100A _{DC}
额定输出	4V DC
电源电压	±12--±15V DC
精度等级	±1%

外形尺寸

Front view of the module. The overall dimensions are 40.00 mm in width and 30.00 mm in height. The central display area is 20.5 mm wide and 10.5 mm high. Two status LEDs are located at the top: 'GIN' on the left and 'QFS' on the right, each indicated by a circle with an 'X' symbol. A trapezoidal connector is on the left side, and a small rectangular pin header is at the bottom center.

Side view of the module. The overall width is 32.20 mm and the height is 29.80 mm. A circular feature, likely a speaker or microphone, is shown on the left side with a red crosshair and a black arrow pointing to the right. A trapezoidal connector is on the left, and a small rectangular pin header is at the bottom center.

Rear view of the module. The overall width is 40.00 mm and the height is 20.00 mm. A trapezoidal connector is on the left. Two mounting holes are indicated: a top hole with diameter D2.5 and a bottom hole with diameter D4.5. A small rectangular pin header is at the bottom center.
