DIMENSIONS	 The technical drawings illustrate the physical dimensions of the CT221461 transformer. The top view shows a semi-circular core with a central circular window. Key dimensions include a central hole diameter of $\phi 7$, an outer diameter of $\phi 23$, and a core thickness of 5 units. The side view shows a total height of 25 units and a base width of 5 units. The bottom view shows a rectangular footprint with a width of 18.6 units and a height of 12 units. It also indicates a central winding area with a diameter of 15 units, a distance of 23 units between mounting points, and a small circular feature with a diameter of $\phi 1$. A red winding symbol is shown on the bottom view, and an asterisk (*) marks a specific point on the core.
